Trade-marks Journal

2017-06-07 — Vol. 64 No. 3267

Canada

Trade-marks Journal

Vol. 64 No. 3267

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

ZACK & QUACK

Goods

(1) photographic apparatus and instruments, namely cameras; teaching apparatus and instruments , namely chalk boards, black boards and white boards; apparatus for recording, transmission or reproduction of sound or images, namely tape and CD recorders and players; pre-recorded video disks and video tapes, CDs, CD ROMs, mini-disks all in the field of children's subject matter and children's entertainment all containing pre-recorded music, audio recordings, namely narrations of children's story books, musical variety shows, films, television shows, television mini-series and television programmes; audio, video and audio-visual recordings, namely compact discs, tape cassettes, audio cassettes, audio tapes, audio discs, video cassettes, DVDs, digital audio tapes, laser discs all in the field of children's subject matter and children's entertainment all containing pre-recorded music, audio recordings, namely narration of children's story books, singing and musical variety shows, films, television shows, television mini-series and television programmes; cinematographical films in the field of children's subject matter and children's entertainment; computers; computer hardware; educational and entertainment software for children; digital music downloadable from the Internet; telecommunications apparatus, namely telephones, mobile telephones, handheld wireless communication radios, two way radio receivers and walkie-talkies; apparatus for use in broadcasting, transmission, receiving, processing, reproducing, encoding and decoding of radio and television programmes and data, namely television and radio decoders, radio transmitters and receivers, television transmitters, audiovisual receivers, television and radio broadcasting tuners; computer games; electronic publications in the form of magazines, books, journals and newsletters provided on-line from databases or the Internet; internet servers; binoculars; magnets, namely craft and refrigerator magnets; sunglasses; sunglasses cases; automatic vending machines including ticket vending machines and dispensers; printed matter, namely diaries, gift cards, gift wrap; printed publications, namely annuals, sticker books and colouring books; books; magazines; journals; posters; photographs; calendars; guide books in the field of children's subject matter and children's entertainment directed to children; carry-all bags; paper bags; printed show programmes; printed publications, namely reference books, children's books, magazines, comics featuring news and information relating to a children's television series; brochures and leaflets; entertainment schedules, namely printed publications featuring programming schedules relating to a children's television series; song lyrics and music and scripts printed in sheet and book form; instructional and teaching material, namely books and newsletters in the field of children's education; writing instruments; pens, pencils, crayons; erasers; rulers; pencil sharpeners; pencil boxes and cases; pencil holders; photograph albums; ring binders; file

folders; notebooks; notepads; diaries; calendars; postcards; drawings; stickers; stickers and transfers; stencils; admission tickets for viewing sporting events, cultural shows, workshops and seminars to help teach children, art shows, motion pictures, musical concerts, television shows, live musical variety shows for children, scripted live shows for children, live shows for children featuring costume character appearances, meet and greet events with children's television show characters, personal appearances by costume characters, book reading events, book signing events and promotional events, namely literary festivals, book author appearances, live interviews to promote the sale of books, DVDs and merchandise all in the field of children's television series and children's television brand; clothing, namely dressing gowns, pyjamas, shorts, sleepsuits, underwear, socks and hosiery, shirts, t-shirts, pants; footwear, namely boots, shoes, slippers, sandals, trainers; headgear, namely hats, caps, berets; articles of outer clothing, namely scarves; gloves; mittens; bibs, jackets and coats; underwear; belts; games, toys and playthings, namely ride-on toys, play camping toys, namely children's tents and wigwams, two-dimensional and three-dimensional photographic viewers, magnetic drawing boards, drawing boards that emit LEDs, toys for use in the bath, playmats, bubble making toys, radio-controlled toy vehicles, crib mobiles and musical mobiles; gymnastic and sporting articles, namely yoga mats, paddling pools, baby multiple activity toys; hand-held video game consoles; handheld computer games for use with television receivers; electronic toys and electronic games, namely electronic board games, toy flashlights and musical, talking and interactive dolls; dolls and dolls' clothing; accessories for dolls; dolls' houses; dolls' furniture; dolls' furniture accessories; teddy bears; toy action figures; toy vehicles; scale model vehicles; toy building structures and toy vehicle tracks; soft toys; plush toys; character figure, doll and outdoor play sets and play cases; party balloons; playing cards; novelty gag and practical joke toys; loot bags; toy masks; facial masks; puzzles; masks, namely masks in the form of toys for dressing up and role play; decorations for Christmas trees; skateboards; skates; skating boots with skates attached; sporting bags and protective carrying cases made of plastic and metal specially adapted for holding and carrying sports articles; golf gloves; gloves for games, namely baseball gloves and gloves for catching balls; puppets; marionettes; balls, namely baseballs, basketballs, cricket balls, softballs, bowling balls, hockey balls, footballs, golf balls, beach balls, lacrosse balls, playground balls, rubber balls, tennis balls, polo balls, water polo balls, squash balls and volley balls; kites; bats for games; marbles

(2) DVDs featuring a children's television series

(3) marketing brochures

(4) catalogues

SERVICES

(1) e-mail services; provision of access to the Internet; television broadcasting, namely the uploading, downloading, capturing, posting, showing, editing, playing, streaming, viewing, previewing, displaying, tagging, blogging, sharing, distributing, publishing, reproducing of prerecorded children's videos, games, educational activities, movies, pictures, images, user commentary and messages, photos, music, audio acting performances via the Internet; webcasting of children's television shows and children's television programming; video conferencing services; transmission of children's television show and children's educational television programming via the Internet; providing multiple user access to an online computer network consisting of message forums, virtual chatrooms, journals, blogs, databases all to transmit messages, comments, videos, photos, sound files to other users; providing access to a computer database containing children's educational and entertainment games and children's educational and entertainment activities, namely, interactive puzzles and games, online colouring books, recipes for children; transmission of television shows, video clips, movies, pictures, images, user commentary and messages, photos

, video games, music, narrations of children's story books via the Internet, all in the field of a children's television series and children's television brand; providing online community forums for users to post, search, watch, share, critique, rate, and comment on videos, movies, pictures, images, user commentary and messages, photos, games, music, audio acting performances in the field of children's television series and children's television brand; streaming of a children's television show via the Internet; entertainment services in the field of children's subject matter and children's entertainment, namely event planning for children, computer games, video games, concerts, musical concerts, live musical variety shows for children, scripted live shows for children, live shows for children featuring costume character appearances, development, production, distribution, transmission and broadcasting of television programmes, television programmes and theatrical shows; providing a website featuring on-line computer games and information about computer games; production, presentation, syndication, distribution and licensing of radio programmes, films, movies, television shows, pre-recorded CD-ROMS containing music and video games, computer games, live musical variety shows for children, scripted live shows for children, live shows for children featuring costume character appearances, stage plays and concerts all in the field of a children's television show; entertainment in the form of theatre productions, arranging and conducting musical concerts, production and distribution of radio programmes and film and video production; providing theatre and cinema facilities; presentation of live performances in the form of concerts and musical variety shows directed at children; recording studio services; rental of stage and stage scenery for theatrical sets and television studios; rental of children's music, television shows and movies based on a children's television show; ticket agency services; theatre shows, musical performances, television programs, radio and cinematic shows, and radio programming for training and educational purposes; production of theatre shows; publication of books, magazines, journals, periodicals, reports, manuals, textbooks; providing on-line electronic publications in the form of magazines, journals and newsletters; publication of electronic books and journals on-line; providing entertainment news and information via a website in the field of a children's television series and children's television brand; streaming of children's music from the Internet, not downloadable; providing an Internet website featuring information based on a children's television show; operation of an Internet website offering information in the fields of educating and entertaining children in the fields of music, exercise, dance, children's personal safety, general health and well-being, and fitness

(2) entertainment in the form of television shows; television broadcasting

(3) television video-on-demand services

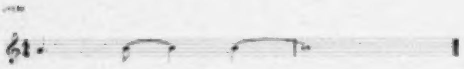
Sound Mark

Listen to sound file



Trademark Description

The mark is a sound mark consisting of a melody and rhythm over two bars that consist of three notes; A, B, B. The first note (A) and second note (B) are dotted quarter notes which makes a syncopated rhythm in relation to the beat. The third and final note (B) lands on the fourth beat in the first bar and is sustained during 5 beats and throughout the second bar, in relation to the beat the three notes make a poly-rhythm; 3(notes even spread) over 4(beats).

Goods

(1) (a) machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, gear drives, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and industrial gas turbines for mechanical drive, turbochargers for internal combustion engines, electricity generators, spindles being parts of machines, high frequency motor spindles with high frequency electric converters and power supply units; electric motors for machines and electric generators; machine coupling and transmission components (except for land vehicles); electricity generators and current generators; conveyor belts and conveyors; conveyor belts and tapes; pneumatic conveyors; electric control panels for machines, engines and motors; pneumatic control panels for machines, motors and engines; electric drives for industrial machinery; driving motors other than for land vehicles, in particular for ship propulsion; hydraulic controls for machines, engines and motors; hydraulic engines and motors comprising hydraulic pumps, hydraulic conveyors, hydraulic circuits for machines; industrial robots; turbochargers for internal combustion engines; pumps, namely, centrifugal pumps, electric heat pumps, electric rotary pumps, electric screw pumps, compressed air pumps, pumps as parts of machines, motors, and engines, hydraulic pumps and pneumatic pumps; compressors, namely, air compressors, electric compressors, centrifugal compressors, compressors as parts of machines , motors and engines; mills, namely, grinding mills, rolling mills, rod mills, bar mills, rod and bar mills, heavy, medium and light section mills, rail mills, blooming mills and billet mills; wind operated

generators, namely, electric generators, electricity generators, turbine generators; floating or non-floating drilling rigs; (b) scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including parts for all the aforesaid goods, namely, timers for recording and measuring electric currents, ammeters, volt meters, control and protective equipment for electrical networks in the nature of surge protectors; automated process control systems in the field of electricity generating power plants; emergency rescue and teaching apparatus and instruments, namely, fire alarms, anti-intrusion alarms, theft alarms, personal security alarms, and emergency warning lamps ; electronic systems for monitoring, protection, regulation and control of power utility assets, namely , electric current, electric power transmission and distribution networks; compact discs containing information in the fields of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; downloadable electronic publications, namely, manuals, books, newsletters, magazines, brochures, leaflets in the field of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; computers, laptops and tablets for recording, transmission or reproduction of sound or images; data-processing equipment, namely, computers and microprocessors; computer software programs dealing with automated process control systems and distribution control systems, dealing with the control of electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; lasers, not for medical purposes, namely, laser welding machines; chargers for electric general batteries; timer switches (not for clocks); capacitors; electrical cables, electric conductors for electric motors, electrical conductors for transformers, electronic semi-conductors, electric wires, electric capacitors, electric converters and inverters, electric relays, electric reactors, namely, electric power generators, electric generators, electric converters; electrical pliers; electric cables, lines and wires; accumulator boxes and junction boxes; identification sheaths for electric wires and identification threads for electric wires; cable ducts; electric coils and electrical inductors; magnetic data carriers, namely, blank floppy discs and blank hard discs; semiconductors; electronic and electrical apparatus, devices and instruments including their parts for energy production, distribution and supply, in particular for alternative energy, namely, electrical transformers, electrical switchgear, namely, cut-out switches, circuit closers, electrical circuit breakers, electrical circuit breakers, electrical contacts, namely, electrical circuits, electrical outlets, electrical power connectors, electrical fuses, electrical surge arresters, reactor electric power, namely, electric power generators, electric generators, electric converters, compensators, namely, electrical power distribution blocks, electric semiconductor elements, photovoltaic solar modules, solar panels for production of electricity, solar batteries; fuel cells; blank recording disks, blank recording disks, blank magnetic disks and blank optical disks; data protection apparatus, namely, overvoltage protection solutions in the nature of surge protectors; computer peripheral devices, namely, mouse, keyboards, monitors, printers; current inverters; current rectifiers; power converters; electrical connection parts, namely, connectors for electronic circuits, power connectors, electrical connector housings and electrical connector boxes; junction sleeves; electrical transistors, thyristors, semiconductor diodes; power semiconductor devices, namely, electronic switches, voltage convertors, current rectifiers, shunts with drive electronics, shunts without drive electronics, power transistors, diodes, power diodes, power controllers, power monitors, current sensors and temperature sensors; electrical transformers; electrical resistors; distribution boards, namely, circuit breaker panels and power distributing boxes; general purpose batteries; integrated switching circuits (chips), namely, computer chips and semiconductor chips; printed-circuit boards; computer operating program; diagnostic apparatus (except for medical use), namely, computer software and databases for use in diagnosis, repair and configuration of computers; remote control apparatus in process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous or mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; anti-interference computer hardware in the field of automated process control systems; memories for data-processing apparatus, namely, RAM (random access memory) cards; electric control panels; switches, namely, power switches, pressure switches, timer switches; electric relays; modems; electrical ducts; connections for electric lines; electrical measuring and controlling instruments in the form of voltage regulators, namely, timers for recording and measuring electric currents, volt meters; sensors, namely, liquid level sensors and pressure sensors; fuses and electrical safety devices, namely, surge protectors, voltage surge suppressors, voltage surge protectors, electrical surge arrestors, circuit breakers and circuit closers, electric circuit closers and cut-out switches; switchboards; voltmeter; counters to electricity meters; circuit breakers; measuring and dosing apparatus, namely, mechanical devices, namely, dispensers of preset portions of fluids, solid granules and powder for dosing purposes, all not for medical use; electric power conversion devices, namely, AC/DDC generators; electric and electronic installations for (remote) control of automated industrial processes, namely, electronic notice boards as well as visual and acoustic warning signals, control panels, distribution consoles, control cables and buttons; elevator operating apparatus, steering apparatus, automatic, namely, elevator lifts, elevator motors for lifting vehicles; installations and apparatus for transmitting, switching and controlling electric current, including their parts, namely, electric voltage transformers, high-voltage generators, voltage monitor regulators, voltage monitor modules, voltage regulators for electric power, voltage stabilizers, voltage surge protectors, ; circuits for heavy electrical current; aerial cables for heavy currents; transformers, namely, electrical voltage transformers, power transformers, electrical power reactors, namely, electrical converters, electrical relays and transformers, electric power generators and parts and fittings therefor; distribution transformers; power switches; electrical sockets; solar batteries; (c) apparatus for lighting, heating, cooling and ventilation, including fans, sanitary installations, namely, lighting fixtures, light emitting diodes, led light bulbs, ceiling lights, electric torches for lighting, emergency warning lights for power plants, heating elements, electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, ,cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans, water conditioning units and fans for motors and engines; steam generating installations, namely, steam generators; apparatus for drying, namely, industrial dryers for heating and dehumidifying, namely, industrial dehumidifiers, industrial furnaces; apparatus for ventilation, namely, ventilating fans for commercial and industrial use; apparatus for water distribution, namely, metered valves, pressure regulators for water installations, cooling installations for water and water purification and filtration apparatus, namely, water coolers, water distillations units, water sterilizers; solar collectors; heat pumps; stoves

(2) (a) machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, gear drives, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and industrial gas turbines for mechanical drive, turbochargers for internal combustion engines, electricity generators, spindles being parts of machines, high frequency motor spindles with high frequency electric converters and power supply units; electric motors for machines and electric generators; machine coupling and transmission components (except for land vehicles); electricity generators and current generators; conveyor

belts and conveyors; conveyor belts and tapes; pneumatic conveyors; electric control panels for machines, engines and motors; pneumatic control panels for machines, motors and engines; electric drives for industrial machinery; driving motors other than for land vehicles, in particular for ship propulsion; hydraulic controls for machines, engines and motors; hydraulic engines and motors comprising hydraulic pumps, hydraulic conveyors, hydraulic circuits for machines; industrial robots; turbochargers for internal combustion engines; pumps, namely, centrifugal pumps, electric heat pumps, electric rotary pumps, electric screw pumps, compressed air pumps, pumps as parts of machines, motors, and engines, hydraulic pumps and pneumatic pumps; compressors, namely, air compressors, electric compressors, centrifugal compressors, compressors as parts of machines , motors and engines; mills, namely, grinding mills, rolling mills, rod mills, bar mills, rod and bar mills, heavy, medium and light section mills, rail mills, blooming mills and billet mills; wind powered generators, namely, electric generators, electricity generators, turbine generators; floating or non-floating drilling rigs; (b) scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including parts for all the aforesaid goods, namely, timers for recording and measuring electric currents, ammeters, volt meters, control and protective equipment for electrical networks in the nature of surge protectors; automated process control systems in the field of electricity generating power plants; emergency rescue and teaching apparatus and instruments, namely, fire alarms, anti-intrusion alarms, theft alarms, personal security alarms, and emergency warning lamps ; electronic systems for monitoring, protection, regulation and control of power utility assets, namely , electric current, electric power transmission and distribution networks; compact discs containing information in the fields of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; downloadable electronic publications, namely, manuals, books, newsletters, magazines, brochures, leaflets in the field of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; computers, laptops and tablets for recording, transmission or reproduction of sound or images; data-processing equipment, namely, computers and microprocessors; computer software programs dealing with automated process control systems and distribution control systems, dealing with the control of electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; lasers, not for medical purposes, namely, laser welding machines; chargers for electric general batteries; timer switches (not for clocks); capacitors; electrical cables, electric conductors for electric motors, electrical conductors for transformers, electronic semi-conductors, electric wires, electric capacitors, electric converters and inverters, electric relays, electric reactors, namely, electric power generators, electric generators, electric converters; electrical pliers; electric cables, lines and wires; accumulator boxes and junction boxes; identification sheaths for electric wires and identification threads for electric wires; cable ducts; electric coils and electrical inductors; magnetic data carriers, namely, blank floppy discs and blank hard discs; semiconductors; electronic and electrical apparatus, devices and instruments including their parts for energy production, distribution and supply, in particular for alternative energy, namely, electrical transformers, electrical switchgear, namely, cut-out switches, circuit closers, electrical circuit breakers, electrical circuit breakers, electrical contacts, namely, electrical circuits, electrical outlets, electrical power connectors, electrical fuses, electrical surge arresters, reactor electric power, namely, electric power generators, electric generators, electric converters, compensators, namely, electrical power distribution blocks, electric semiconductor elements, photovoltaic solar modules, solar panels for production of electricity, solar batteries; fuel cells; blank recording disks, blank recording disks, blank magnetic disks and blank optical disks; data protection apparatus, namely, overvoltage protection solutions in the nature of surge protectors; computer peripheral devices, namely, mouse, keyboards, monitors, printers; current inverters; current rectifiers; power converters; electrical connection parts, namely, connectors for electronic circuits, power connectors, electrical connector housings and electrical connector boxes; junction sleeves; electrical transistors, thyristors, semiconductor diodes; power semiconductor devices, namely, electronic switches, voltage convertors, current rectifiers, shunts with drive electronics, shunts without drive electronics, power transistors, diodes, power diodes, power controllers, power monitors, current sensors and temperature sensors; electrical transformers; electrical resistors; distribution boards, namely, circuit breaker panels and power distributing boxes; general purpose batteries; integrated switching circuits (chips), namely, computer chips and semiconductor chips; printed-circuit boards; computer operating program; diagnostic apparatus (except for medical use), namely, computer software and databases for use in diagnosis, repair and configuration of computers; remote control apparatus in process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous or mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; anti-interference computer hardware in the field of automated process control systems; memories for data-processing apparatus, namely, RAM (random access memory) cards; electric control panels; switches, namely, power switches, pressure switches, timer switches; electric relays; modems; electrical ducts; connections for electric lines; electrical measuring and controlling instruments in the form of voltage regulators, namely, timers for recording and measuring electric currents, volt meters; sensors, namely, liquid level sensors and pressure sensors; fuses and electrical safety devices, namely, surge protectors, voltage surge suppressors, voltage surge protectors, electrical surge arrestors, circuit breakers and circuit closers, electric circuit closers and cut-out switches; switchboards; voltmeter; counters to electricity meters; circuit breakers; measuring and dosing apparatus, namely, mechanical devices, namely, dispensers of preset portions of fluids, solid granules and powder for dosing purposes, all not for medical use; electric power conversion devices, namely, AC/DDC generators; electric and electronic installations for (remote) control of automated industrial processes, namely, electronic notice boards as well as visual and acoustic warning signals, control panels, distribution consoles, control cables and buttons; elevator operating apparatus, steering apparatus, automatic, namely, elevator lifts, elevator motors for lifting vehicles; installations and apparatus for transmitting, switching and controlling electric current, including their parts, namely, electric voltage transformers, high-voltage generators, voltage monitor regulators, voltage monitor modules, voltage regulators for electric power, voltage stabilizers, voltage surge protectors, ; circuits for heavy electrical current; aerial cables for heavy currents; transformers, namely, electrical voltage transformers, power transformers, electrical power reactors, namely, electrical converters, electrical relays and transformers, electric power generators and parts and fittings therefor; distribution transformers; power switches; electrical sockets; solar batteries; (c) apparatus for lighting, heating, cooling and ventilation, including fans, sanitary installations, namely, lighting fixtures, light emitting diodes, led light bulbs, ceiling lights, electric torches for lighting, emergency warning lights for power plants, heating elements, electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans, water conditioning units and fans for motors and engines; steam generating installations, namely, steam generators; apparatus for drying, namely, industrial dryers for heating and dehumidifying, namely, industrial dehumidifiers, industrial furnaces; apparatus for ventilation, namely, ventilating fans for commercial and industrial use; apparatus for water distribution, namely, metered valves, pressure regulators for water installations, cooling installations for water and water purification and filtration apparatus, namely, water coolers, water distillations units, water sterilizers; solar collectors; heat pumps; stoves

SERVICES

(1) (a) building construction services, including consultation in the field of business construction services; repair services, namely, repair of construction machines, repair of chemical processing machines, repair of semiconductor manufacturing machines, electrical repair of electrical motors, repair of power generators, electrical repair of lighting, repair of heating installations, repair of computer hardware, repair of office equipment, repair of computer networks; installation services, including advice relating thereto, namely, installation of electrical systems, solar energy based power plants, heating, ventilating and air conditioning systems, as well as installation of computer networks and computer systems, including consultation in the field of installation of computer networks and computer systems; maintenance and installation services for industrial installations, namely, installation and maintenance of electrical and generating machinery; installation, setting up , maintenance and repair of computer hardware and office equipment; maintenance of computer hardware in particular of computers and computer networks; installation, maintenance, repair and interference suppression of electrical and generating machinery; installation and maintenance of oil lines; underwater construction; consultancy services in the fields of computer networks and computer systems and oil line installation and maintenance and underwater construction; consultancy services in the field of automated process control systems, robotics, electricity generation, construction, solar energy based power plants, heating, ventilating and air conditioning systems (b) educational services in the fields of solar energy based power plants, electricity generation, chemical engineering, mechanical engineering, computer engineering, automated process control systems, computer networks and computer systems; providing training in the field of solar energy based power plants, electricity generation, chemical engineering, mechanical engineering, computer engineering, automated process control systems, computer networks and computer systems, namely, training in the use and operation of computer equipment; providing instructional pamphlets, brochures, manuals, leaflets in the field of energy, power, engineering, automation, computer networks and computer systems; organization and conducting of seminars in the field of computer science, chemistry, physics, solar energy based power plants, electricity generation, chemical engineering, mechanical engineering, computer engineering, automated process control systems, computer networks and computer systems; photographic reporting; organization of conferences in the field of computer science, chemistry, physics; business consulting in the fields of computer science, chemistry, physics, solar energy based power plants, electricity generation, chemical engineering, mechanical engineer, computer engineering, automated process control systems, computer networks and computer systems; technical consulting in the fields of computer science, chemistry, physics, solar energy based power plants, electricity generation, chemical engineering, mechanical engineer, computer engineering, automated process control systems, computer networks and computer systems; (c) scientific and industrial research in the field of mechanical engineering, machines and machine tools, power plants, electricity generation, energy efficiency, energy saving, environmental protection and data processing; computer programming for data processing purposes; providing user access to a global computer network; providing technical information concerning the use of computers, computer hardware, software and networks online via a computer data bank or via computer networks; material testing; industrial design services; packaging design services; quality assessment, namely, materials testing, analyzing and evaluation; underwater exploration, namely, oil exploration, gas exploration; engineering consultancy in the field of environmental protection, consultancy in the field of energy saving, technical advice in connection with energy-saving measures, technical consultancy in the field of energy conservation and -efficiency; design of

computer software in particular in the field of computer security; network engineer services, namely , computer security consulting and computer network security services; scientific and industrial research in the field of software design; updating computer software; performance of chemical analyses; analyses for oil extraction; performance of exploratory drilling operations for oil; monitoring of oil wells; production of analyses for oil extraction, drawing up of experts reports about oil presence; architectural services; physics research; research in the field of chemistry; services provided by a physicist, namely, research in the field of physics; computer support services, particularly in the field of technical security; computer data recovery; software maintenance; computer systems analyses; market research services and development of new products for others ; scientific and industrial research, namely, research in the field of machine construction and engineering; technical surveying; computer security consultancy; construction drafting; rental of software for data processing; development of computer software; engineering services, namely, chemical engineering services, mechanical engineering services, civil engineering services, electrical engineering services; (d) the retail sales and distribution of machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, gear drives, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and industrial gas turbines for mechanical drive, turbochargers for internal combustion engines, electricity generators, spindles being parts of machines, high frequency motor spindles with high frequency electric converters and power supply units; electric motors for machines and electric generators; machine coupling and transmission components (except for land vehicles); electricity generators and current generators; conveyor belts and conveyors; conveyor belts and tapes; pneumatic conveyors; electric control panels for machines, engines and motors; pneumatic control panels for machines, motors and engines; electric drives for industrial machinery ; driving motors other than for land vehicles, in particular for ship propulsion; hydraulic controls for machines, engines and motors; hydraulic engines and motors comprising hydraulic pumps, hydraulic conveyors, hydraulic circuits for machines; industrial robots; turbochargers for internal combustion engines; pumps, namely, centrifugal pumps, electric heat pumps, electric rotary pumps , electric screw pumps, compressed air pumps, pumps as parts of machines, motors, and engines, hydraulic pumps and pneumatic pumps; compressors, namely, air compressors, electric compressors, centrifugal compressors, compressors as parts of machines, motors and engines; mills, namely, grinding mills, rolling mills, rod mills, bar mills, rod and bar mills, heavy, medium and light section mills, rail mills, blooming mills and billet mills; wind operated generators, namely, electric generators, electricity generators, turbine generators; floating or non-floating drilling rigs; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including parts for all the aforesaid goods, namely, timers for recording and measuring electric currents, ammeters, volt meters, control and protective equipment for electrical networks in the nature of surge protectors; automated process control systems in the field of electricity generating power plants; emergency rescue and teaching apparatus and instruments, namely, fire alarms, anti-intrusion alarms, theft alarms, personal security alarms, and emergency warning lamps; electronic systems for monitoring, protection, regulation and control of power utility assets, namely, electric current, electric power transmission and distribution networks; compact discs containing information in the fields of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; downloadable electronic publications, namely, manuals, books, newsletters, magazines, brochures, leaflets in the field of automated process control systems, machines and machine tools, robotics, power plants, electricity generation , power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; computers, laptops and tablets for recording, transmission or reproduction of sound or images; data-processing equipment, namely, computers and microprocessors; computer software programs dealing with automated process control systems and distribution control systems, dealing with the control of electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; lasers, not for medical purposes, namely, laser welding machines; chargers for electric general batteries; timer switches (not for clocks); capacitors; electrical cables, electric conductors for electric motors, electrical conductors for transformers, electronic semi-conductors, electric wires, electric capacitors, electric converters and inverters, electric relays, electric reactors, namely, electric power generators, electric generators, electric converters; electrical pliers; electric cables, lines and wires; accumulator boxes and junction boxes; identification sheaths for electric wires and identification threads for electric wires; cable ducts; electric coils and electrical inductors; magnetic data carriers, namely, blank floppy discs and blank hard discs; semiconductors; electronic and electrical apparatus, devices and instruments including their parts for energy production, distribution and supply, in particular for alternative energy, namely, electrical transformers, electrical switchgear, namely, cut-out switches, circuit closers, electrical circuit breakers, electrical circuit breakers, electrical contacts, namely, electrical circuits, electrical outlets, electrical power connectors, electrical fuses, electrical surge arresters, reactor electric power, namely, electric power generators, electric generators, electric converters, compensators, namely, electrical power distribution blocks, electric semiconductor elements, photovoltaic solar modules, solar panels for production of electricity, solar batteries; fuel cells; blank recording disks, blank recording disks, blank magnetic disks and blank optical disks; data protection apparatus, namely, overvoltage protection solutions in the nature of surge protectors; computer peripheral devices, namely, mouse, keyboards, monitors, printers; current inverters; current rectifiers; power converters; electrical connection parts, namely, connectors for electronic circuits, power connectors, electrical connector housings and electrical connector boxes; junction sleeves; electrical transistors, thyristors, semiconductor diodes; power semiconductor devices, namely, electronic switches, voltage convertors, current rectifiers, shunts with drive electronics, shunts without drive electronics, power transistors, diodes, power diodes, power controllers, power monitors, current sensors and temperature sensors; electrical transformers; electrical resistors; distribution boards, namely, circuit breaker panels and power distributing boxes; general purpose batteries; integrated switching circuits (chips), namely, computer chips and semiconductor chips; printed-circuit boards; computer operating program; diagnostic apparatus (except for medical use), namely, computer software and databases for use in diagnosis, repair and configuration of computers; remote control apparatus in process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous or mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; anti-interference computer hardware in the field of automated process control systems; memories for data-processing apparatus, namely, RAM (random access memory) cards; electric control panels; switches, namely, power switches, pressure switches, timer switches; electric relays; modems; electrical ducts; connections for electric lines; electrical measuring and controlling instruments in the form of voltage regulators, namely, timers for recording and measuring electric currents, volt meters; sensors, namely, liquid level sensors and pressure sensors; fuses and electrical safety devices, namely, surge protectors, voltage surge suppressors, voltage surge protectors, electrical surge arrestors, circuit breakers and circuit closers, electric circuit closers and cut-out switches; switchboards; voltmeter; counters to electricity meters; circuit breakers; measuring and dosing apparatus, namely, mechanical devices, namely, dispensers of preset portions of fluids, solid granules and powder for dosing purposes, all not for medical use; electric power conversion devices, namely, AC/DDC generators; electric and electronic installations for (remote) control of automated industrial processes, namely, electronic notice boards as well as visual and acoustic warning signals, control panels, distribution consoles, control cables and buttons; elevator operating apparatus, steering apparatus, automatic, namely, elevator lifts, elevator motors for lifting vehicles; installations and apparatus for transmitting, switching and controlling electric current, including their parts, namely, electric voltage transformers, high-voltage generators, voltage monitor regulators, voltage monitor modules, voltage regulators for electric power, voltage stabilizers, voltage surge protectors, ; circuits for heavy electrical current; aerial cables for heavy currents; transformers, namely, electrical voltage transformers, power transformers, electrical power reactors, namely, electrical converters, electrical relays and transformers, electric power generators and parts and fittings therefor; distribution transformers; power switches; electrical sockets; solar batteries; apparatus for lighting, heating, cooling and ventilation, including fans, sanitary installations, namely, lighting fixtures, light emitting diodes, led light bulbs, ceiling lights, electric torches for lighting, emergency warning lights for power plants, heating elements, electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, ,cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans, water conditioning units and fans for motors and engines; steam generating installations, namely, steam generators; apparatus for drying, namely, industrial dryers for heating and dehumidifying, namely, industrial dehumidifiers, industrial furnaces; apparatus for ventilation, namely, ventilating fans for commercial and industrial use; apparatus for water distribution, namely, metered valves, pressure regulators for water installations, cooling installations for water and water purification and filtration apparatus, namely, water coolers, water distillations units, water sterilizers; solar collectors; heat pumps; stoves; providing information about and instruction concerning the use of machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, gear drives, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and industrial gas turbines for mechanical drive, turbochargers for internal combustion engines, electricity generators, spindles being parts of machines, high frequency motor spindles with high frequency electric converters and power supply units; electric motors for machines and electric generators; machine coupling and transmission components (except for land vehicles); electricity generators and current generators; conveyor belts and conveyors; conveyor belts and tapes; pneumatic conveyors; electric control panels for machines, engines and motors; pneumatic control panels for machines, motors and engines; electric drives for industrial machinery; driving motors other than for land vehicles, in particular for ship propulsion; hydraulic controls for machines, engines and motors; hydraulic engines and motors comprising hydraulic pumps, hydraulic conveyors, hydraulic circuits for machines; industrial robots; turbochargers for internal combustion engines; pumps, namely, centrifugal pumps, electric heat pumps, electric rotary pumps, electric screw pumps, compressed air pumps, pumps as parts of machines, motors, and engines, hydraulic pumps and pneumatic pumps; compressors, namely, air compressors, electric compressors, centrifugal compressors, compressors as parts of machines, motors and engines; mills, namely, grinding mills, rolling mills, rod mills, bar mills, rod and bar mills, heavy, medium and light section mills, rail mills, blooming mills and billet mills; wind operated generators, namely, electric generators, electricity generators, turbine generators; floating or non-floating drilling rigs; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including parts for all the aforesaid goods, namely, timers for recording and measuring electric currents, ammeters, volt meters, control and protective equipment for electrical networks in the nature of surge protectors; automated process control systems in the field of electricity generating power plants; emergency rescue and teaching apparatus and instruments, namely, fire alarms, anti-intrusion alarms, theft alarms, personal security alarms, and emergency warning lamps; electronic systems for monitoring, protection, regulation and control of power utility assets, namely, electric current, electric power transmission and distribution networks; compact discs containing information in the fields of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; downloadable electronic publications, namely, manuals, books, newsletters, magazines, brochures, leaflets in the field of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; computers, laptops and tablets for recording, transmission or reproduction of sound or images; data-processing equipment, namely, computers and microprocessors; computer software programs dealing with automated process control systems and distribution control systems, dealing with the control of electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; lasers, not for medical purposes, namely, laser welding machines; chargers for electric general batteries; timer switches (not for clocks); capacitors; electrical cables, electric conductors for electric motors, electrical conductors for transformers, electronic semi-conductors, electric wires, electric capacitors, electric converters and inverters, electric relays, electric reactors, namely, electric power generators, electric generators, electric converters; electrical pliers; electric cables, lines and wires; accumulator boxes and junction boxes; identification sheaths for electric wires and identification threads for electric wires; cable ducts; electric coils and electrical inductors; magnetic data carriers, namely, blank floppy discs and blank hard discs; semiconductors; electronic and electrical apparatus, devices and instruments including their parts for energy production, distribution and supply, in particular for alternative energy, namely , electrical transformers, electrical switchgear, namely, cut-out switches, circuit closers, electrical circuit breakers, electrical circuit breakers, electrical contacts, namely, electrical circuits, electrical outlets, electrical power connectors, electrical fuses, electrical surge arresters, reactor electric power, namely, electric power generators, electric generators, electric converters, compensators, namely, electrical power distribution blocks, electric semiconductor elements, photovoltaic solar modules, solar panels for production of electricity, solar batteries; fuel cells; blank recording disks, blank recording disks, blank magnetic disks and blank optical disks; data protection apparatus, namely, overvoltage protection solutions in the nature of surge protectors; computer peripheral devices, namely, mouse, keyboards, monitors, printers; current inverters; current rectifiers; power converters; electrical connection parts, namely, connectors for electronic circuits, power connectors , electrical connector housings and electrical connector boxes; junction sleeves; electrical transistors, thyristors, semiconductor diodes; power semiconductor devices, namely, electronic switches, voltage convertors, current rectifiers, shunts with drive electronics, shunts without drive electronics, power transistors, diodes, power diodes, power controllers, power monitors, current sensors and temperature sensors; electrical transformers; electrical resistors; distribution boards, namely, circuit breaker panels and power distributing boxes; general purpose batteries; integrated switching circuits (chips), namely, computer chips and semiconductor chips; printed-circuit boards; computer operating program; diagnostic apparatus (except for medical use), namely, computer software and databases for use in diagnosis, repair and configuration of computers; remote control apparatus in process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous or mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; anti-interference computer hardware in the field of automated process control systems; memories for data-processing apparatus, namely, RAM (random access memory) cards; electric control panels; switches, namely, power switches, pressure switches, timer switches; electric relays; modems; electrical ducts; connections for electric lines; electrical measuring and controlling instruments in the form of voltage regulators, namely, timers for recording and measuring electric currents, volt meters; sensors, namely, liquid level sensors and pressure sensors; fuses and electrical safety devices, namely, surge protectors, voltage surge suppressors, voltage surge protectors, electrical surge arrestors, circuit breakers and circuit closers, electric circuit closers and cut-out switches; switchboards; voltmeter; counters to electricity meters; circuit breakers; measuring and dosing apparatus, namely, mechanical devices, namely, dispensers of preset portions of fluids, solid granules and powder for dosing purposes, all not for medical use; electric power conversion devices, namely, AC/DDC generators; electric and electronic installations for (remote) control of automated industrial processes, namely, electronic notice boards as well as visual and acoustic warning signals, control panels, distribution consoles, control cables and buttons; elevator operating apparatus, steering apparatus, automatic, namely, elevator lifts, elevator motors for lifting vehicles; installations and apparatus for transmitting, switching and controlling electric current, including their parts, namely, electric voltage transformers, high-voltage generators, voltage monitor regulators, voltage monitor modules, voltage regulators for electric power, voltage stabilizers, voltage surge protectors, ; circuits for heavy electrical current; aerial cables for heavy currents; transformers, namely, electrical voltage transformers, power transformers, electrical power reactors, namely, electrical converters, electrical relays and transformers, electric power generators and parts and fittings therefor; distribution transformers; power switches; electrical sockets; solar batteries; apparatus for lighting, heating, cooling and ventilation, including fans, sanitary installations, namely, lighting fixtures, light emitting diodes, led light bulbs, ceiling lights, electric torches for lighting, emergency warning lights for power plants, heating elements, electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, ,cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans, water conditioning units and fans for motors and engines; steam generating installations, namely, steam generators; apparatus for drying, namely, industrial dryers for heating and dehumidifying, namely, industrial dehumidifiers, industrial furnaces; apparatus for ventilation, namely, ventilating fans for commercial and industrial use; apparatus for water distribution, namely, metered valves, pressure regulators for water installations, cooling installations for water and water purification and filtration apparatus, namely, water coolers, water distillations units, water sterilizers; solar collectors; heat pumps; stoves, through the distribution of videos

(2) (a) building construction services, including consultation in the field of business construction services; repair services, namely, repair of construction machines, repair of chemical processing machines, repair of semiconductor manufacturing machines, electrical repair of electrical motors, repair of power generators, electrical repair of lighting, repair of heating installations, repair of computer hardware, repair of office equipment, repair of computer networks; installation services, including advice relating thereto, namely, installation of electrical systems, solar energy based power plants, heating, ventilating and air conditioning systems, as well as installation of computer networks and computer systems, including consultation in the field of installation of computer networks and computer systems; maintenance and installation services for industrial installations, namely, installation and maintenance of electrical and generating machinery; installation, setting up , maintenance and repair of computer hardware and office equipment; maintenance of computer hardware in particular of computers and computer networks; installation, maintenance, repair and

interference suppression of electrical and generating machinery; installation and maintenance of oil lines; underwater construction; consultancy services in the fields of computer networks and computer systems and oil line installation and maintenance and underwater construction; consultancy services in the field of automated process control systems, robotics, electricity generation, construction, solar energy based power plants, heating, ventilating and air conditioning systems (b) educational services in the fields of solar energy based power plants, electricity generation, chemical engineering, mechanical engineering, computer engineering, automated process control systems, computer networks and computer systems; providing training in the field of solar energy based power plants, electricity generation, chemical engineering, mechanical engineering, computer engineering, automated process control systems, computer networks and computer systems, namely, training in the use and operation of computer equipment; providing instructional pamphlets, brochures, manuals, leaflets in the field of energy, power, engineering, automation, computer networks and computer systems; organization and conducting of seminars in the field of computer science, chemistry, physics, solar energy based power plants, electricity generation, chemical engineering, mechanical engineering, computer engineering, automated process control systems, computer networks and computer systems; photographic reporting; organization of conferences in the field of computer science, chemistry, physics; business consulting in the fields of computer science, chemistry, physics, solar energy based power plants, electricity generation, chemical engineering, mechanical engineer, computer engineering, automated process control systems, computer networks and computer systems; technical consulting in the fields of computer science, chemistry, physics, solar energy based power plants, electricity generation, chemical engineering, mechanical engineer, computer engineering, automated process control systems, computer networks and computer systems; (c) scientific and industrial research in the field of mechanical engineering, machines and machine tools, power plants, electricity generation, energy efficiency, energy saving, environmental protection and data processing; computer programming for data processing purposes; providing user access to a global computer network; providing technical information concerning the use of computers, computer hardware, software and networks online via a computer data bank or via computer networks; material testing; industrial design services; packaging design services; quality assessment, namely, materials testing, analyzing and evaluation; underwater exploration, namely, oil exploration, gas exploration; engineering consultancy in the field of environmental protection, consultancy in the field of energy saving, technical advice in connection with energy-saving measures, technical consultancy in the field of energy conservation and -efficiency; design of computer software in particular in the field of computer security; network engineer services, namely , computer security consulting and computer network security services; scientific and industrial research in the field of software design; updating computer software; performance of chemical analyses; analyses for oil extraction; performance of exploratory drilling operations for oil; monitoring of oil wells; production of analyses for oil extraction, drawing up of experts reports about oil presence; architectural services; physics research; research in the field of chemistry; services provided by a physicist, namely, research in the field of physics; computer support services, particularly in the field of technical security; computer data recovery; software maintenance; computer systems analyses; market research services and development of new products for others ; scientific and industrial research, namely, research in the field of machine construction and engineering; technical surveying; computer security consultancy; construction drafting; rental of software for data processing; development of computer software; engineering services, namely, chemical engineering services, mechanical engineering services, civil engineering services, electrical engineering services; (d) the retail sales and distribution of machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, gear drives,

drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and industrial gas turbines for mechanical drive, turbochargers for internal combustion engines, electricity generators, spindles being parts of machines, high frequency motor spindles with high frequency electric converters and power supply units; electric motors for machines and electric generators; machine coupling and transmission components (except for land vehicles); electricity generators and current generators; conveyor belts and conveyors; conveyor belts and tapes; pneumatic conveyors; electric control panels for machines, engines and motors; pneumatic control panels for machines, motors and engines; electric drives for industrial machinery ; driving motors other than for land vehicles, in particular for ship propulsion; hydraulic controls for machines, engines and motors; hydraulic engines and motors comprising hydraulic pumps, hydraulic conveyors, hydraulic circuits for machines; industrial robots; turbochargers for internal combustion engines; pumps, namely, centrifugal pumps, electric heat pumps, electric rotary pumps , electric screw pumps, compressed air pumps, pumps as parts of machines, motors, and engines, hydraulic pumps and pneumatic pumps; compressors, namely, air compressors, electric compressors, centrifugal compressors, compressors as parts of machines, motors and engines; mills, namely, grinding mills, rolling mills, rod mills, bar mills, rod and bar mills, heavy, medium and light section mills, rail mills, blooming mills and billet mills; wind operated generators, namely, electric generators, electricity generators, turbine generators; floating or non-floating drilling rigs; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including parts for all the aforesaid goods, namely, timers for recording and measuring electric currents, ammeters, volt meters, control and protective equipment for electrical networks in the nature of surge protectors; automated process control systems in the field of electricity generating power plants; emergency rescue and teaching apparatus and instruments, namely, fire alarms, anti-intrusion alarms, theft alarms, personal security alarms, and emergency warning lamps; electronic systems for monitoring, protection, regulation and control of power utility assets, namely, electric current, electric power transmission and distribution networks; compact discs containing information in the fields of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; downloadable electronic publications, namely, manuals, books, newsletters, magazines, brochures, leaflets in the field of automated process control systems, machines and machine tools, robotics, power plants, electricity generation , power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; computers, laptops and tablets for recording, transmission or reproduction of sound or images; data-processing equipment, namely, computers and microprocessors; computer software programs dealing with automated process control systems and distribution control systems, dealing with the control of electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; lasers, not for medical purposes, namely, laser welding machines; chargers for electric general batteries; timer switches (not for clocks); capacitors; electrical cables, electric conductors for electric motors, electrical conductors for transformers, electronic semi-conductors, electric wires, electric capacitors, electric converters and inverters, electric relays, electric reactors, namely, electric power generators, electric generators, electric converters; electrical pliers; electric cables, lines and wires; accumulator boxes and junction boxes; identification sheaths for electric wires and identification threads for electric wires; cable ducts; electric coils and electrical inductors; magnetic data carriers, namely, blank floppy discs and blank hard discs; semiconductors; electronic and electrical apparatus, devices and instruments including their parts for energy production, distribution and supply, in particular for alternative energy, namely, electrical transformers, electrical switchgear, namely, cut-out switches, circuit closers, electrical circuit breakers, electrical circuit breakers, electrical contacts, namely, electrical circuits, electrical outlets, electrical power connectors, electrical fuses, electrical surge arresters, reactor electric power, namely, electric power generators, electric generators, electric converters, compensators, namely, electrical power distribution blocks, electric semiconductor elements, photovoltaic solar modules, solar panels for production of electricity, solar batteries; fuel cells; blank recording disks, blank recording disks, blank magnetic disks and blank optical disks; data protection apparatus, namely, overvoltage protection solutions in the nature of surge protectors; computer peripheral devices, namely, mouse, keyboards, monitors, printers; current inverters; current rectifiers; power converters; electrical connection parts, namely, connectors for electronic circuits, power connectors, electrical connector housings and electrical connector boxes; junction sleeves; electrical transistors, thyristors, semiconductor diodes; power semiconductor devices, namely, electronic switches, voltage convertors, current rectifiers, shunts with drive electronics, shunts without drive electronics, power transistors, diodes, power diodes, power controllers, power monitors, current sensors and temperature sensors; electrical transformers; electrical resistors; distribution boards, namely, circuit breaker panels and power distributing boxes; general purpose batteries; integrated switching circuits (chips), namely, computer chips and semiconductor chips; printed-circuit boards; computer operating program; diagnostic apparatus (except for medical use), namely, computer software and databases for use in diagnosis, repair and configuration of computers; remote control apparatus in process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous or mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; anti-interference computer hardware in the field of automated process control systems; memories for data-processing apparatus, namely, RAM (random access memory) cards; electric control panels; switches, namely, power switches, pressure switches, timer switches; electric relays; modems; electrical ducts; connections for electric lines; electrical measuring and controlling instruments in the form of voltage regulators, namely, timers for recording and measuring electric currents, volt meters; sensors, namely, liquid level sensors and pressure sensors; fuses and electrical safety devices, namely, surge protectors, voltage surge suppressors, voltage surge protectors, electrical surge arrestors, circuit breakers and circuit closers, electric circuit closers and cut-out switches; switchboards; voltmeter; counters to electricity meters; circuit breakers; measuring and dosing apparatus, namely, mechanical devices, namely, dispensers of preset portions of fluids, solid granules and powder for dosing purposes, all not for medical use; electric power conversion devices, namely, AC/DDC generators; electric and electronic installations for (remote) control of automated industrial processes, namely, electronic notice boards as well as visual and acoustic warning signals, control panels, distribution consoles, control cables and buttons; elevator operating apparatus, steering apparatus, automatic, namely, elevator lifts, elevator motors for lifting vehicles; installations and apparatus for transmitting, switching and controlling electric current, including their parts, namely, electric voltage transformers, high-voltage generators, voltage monitor regulators, voltage monitor modules, voltage regulators for electric power, voltage stabilizers, voltage surge protectors, ; circuits for heavy electrical current; aerial cables for heavy currents; transformers, namely, electrical voltage transformers, power transformers, electrical power reactors, namely, electrical converters, electrical relays and transformers, electric power generators and parts and fittings therefor; distribution transformers; power switches; electrical sockets; solar batteries; apparatus for lighting, heating, cooling and ventilation, including fans, sanitary installations, namely, lighting fixtures, light emitting diodes, led light bulbs, ceiling lights, electric torches for lighting, emergency warning lights for power plants, heating elements, electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, ,cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans, water conditioning units and fans for motors and engines; steam generating installations, namely, steam generators; apparatus for drying, namely, industrial dryers for heating and dehumidifying, namely, industrial dehumidifiers, industrial furnaces; apparatus for ventilation, namely, ventilating fans for commercial and industrial use; apparatus for water distribution, namely, metered valves, pressure regulators for water installations, cooling installations for water and water purification and filtration apparatus, namely, water coolers, water distillations units, water sterilizers; solar collectors; heat pumps; stoves; providing information about and instruction concerning the use of machines and machine tools as well as their parts, namely, automated machines and machine tools as well as their parts in the nature of electric drives for electric motors for machines, drives for vacuum pumps, gear drives, drives for machines, namely, electric drives for vehicles and electric drives for industrial machinery, electric generators, turbines other than for land vehicles, namely, wind turbines, turbines for generation of electricity, turbines for jet engines, steam turbines and industrial gas turbines for power generation and industrial gas turbines for mechanical drive, turbochargers for internal combustion engines, electricity generators, spindles being parts of machines, high frequency motor spindles with high frequency electric converters and power supply units; electric motors for machines and electric generators; machine coupling and transmission components (except for land vehicles); electricity generators and current generators; conveyor belts and conveyors; conveyor belts and tapes; pneumatic conveyors; electric control panels for machines, engines and motors; pneumatic control panels for machines, motors and engines; electric drives for industrial machinery; driving motors other than for land vehicles, in particular for ship propulsion; hydraulic controls for machines, engines and motors; hydraulic engines and motors comprising hydraulic pumps, hydraulic conveyors, hydraulic circuits for machines; industrial robots; turbochargers for internal combustion engines; pumps, namely, centrifugal pumps, electric heat pumps, electric rotary pumps, electric screw pumps, compressed air pumps, pumps as parts of machines, motors, and engines, hydraulic pumps and pneumatic pumps; compressors, namely, air compressors, electric compressors, centrifugal compressors, compressors as parts of machines, motors and engines; mills, namely, grinding mills, rolling mills, rod mills, bar mills, rod and bar mills, heavy, medium and light section mills, rail mills, blooming mills and billet mills; wind operated generators, namely, electric generators, electricity generators, turbine generators; floating or non-floating drilling rigs; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, analyzing, indicating, signaling, monitoring apparatus, instruments and devices, including parts for all the aforesaid goods, namely, timers for recording and measuring electric currents, ammeters, volt meters, control and protective equipment for electrical networks in the nature of surge protectors; automated process control systems in the field of electricity generating power plants; emergency rescue and teaching apparatus and instruments, namely, fire alarms, anti-intrusion alarms, theft alarms, personal security alarms, and emergency warning lamps; electronic systems for monitoring, protection, regulation and control of power utility assets, namely, electric current, electric power transmission and distribution networks; compact discs containing information in the fields of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; downloadable electronic publications, namely, manuals, books, newsletters, magazines, brochures, leaflets in the field of automated process control systems, machines and machine tools, robotics, power plants, electricity generation, power and automation technologies, engineering, construction, transport, environmental protection, energy saving, energy efficiency; computers, laptops and tablets for recording, transmission or reproduction of sound or images; data-processing equipment, namely, computers and microprocessors; computer software programs dealing with automated process control systems and distribution control systems, dealing with the control of electricity generating power plants, industrial plants, buildings and networks for the transport of electric energy, gas and oil; lasers, not for medical purposes, namely, laser welding machines; chargers for electric general batteries; timer switches (not for clocks); capacitors; electrical cables, electric conductors for electric motors, electrical conductors for transformers, electronic semi-conductors, electric wires, electric capacitors, electric converters and inverters, electric relays, electric reactors, namely, electric power generators, electric generators, electric converters; electrical pliers; electric cables, lines and wires; accumulator boxes and junction boxes; identification sheaths for electric wires and identification threads for electric wires; cable ducts; electric coils and electrical inductors; magnetic data carriers, namely, blank floppy discs and blank hard discs; semiconductors; electronic and electrical apparatus, devices and instruments including their parts for energy production, distribution and supply, in particular for alternative energy, namely , electrical transformers, electrical switchgear, namely, cut-out switches, circuit closers, electrical circuit breakers, electrical circuit breakers, electrical contacts, namely, electrical circuits, electrical outlets, electrical power connectors, electrical fuses, electrical surge arresters, reactor electric power, namely, electric power generators, electric generators, electric converters, compensators, namely, electrical power distribution blocks, electric semiconductor elements, photovoltaic solar modules, solar panels for production of electricity, solar batteries; fuel cells; blank recording disks, blank recording disks, blank magnetic disks and blank optical disks; data protection apparatus, namely, overvoltage protection solutions in the nature of surge protectors; computer peripheral devices, namely, mouse, keyboards, monitors, printers; current inverters; current rectifiers; power converters; electrical connection parts, namely, connectors for electronic circuits, power connectors , electrical connector housings and electrical connector boxes; junction sleeves; electrical transistors, thyristors, semiconductor diodes; power semiconductor devices, namely, electronic switches, voltage convertors, current rectifiers, shunts with drive electronics, shunts without drive electronics, power transistors, diodes, power diodes, power controllers, power monitors, current sensors and temperature sensors; electrical transformers; electrical resistors; distribution boards, namely, circuit breaker panels and power distributing boxes; general purpose batteries; integrated switching circuits (chips), namely, computer chips and semiconductor chips; printed-circuit boards; computer operating program; diagnostic apparatus (except for medical use), namely, computer software and databases for use in diagnosis, repair and configuration of computers; remote control apparatus in process automation systems, namely, electronic notice boards as well as visual and acoustic warning signals, namely, electronic warning bells, emergency warning lights, luminous or mechanical warning signals, beacons, sirens, warning indicators, signal lights, electric control panels, power distribution boxes, control cables and buttons, namely, cable connectors, electric cables, power switches; anti-interference computer hardware in the field of automated process control systems; memories for data-processing apparatus, namely, RAM (random access memory) cards; electric control panels; switches, namely, power switches, pressure switches, timer switches; electric relays; modems; electrical ducts; connections for electric lines; electrical measuring and controlling instruments in the form of voltage regulators, namely, timers for recording and measuring electric currents, volt meters; sensors, namely, liquid level sensors and pressure sensors; fuses and electrical safety devices, namely, surge protectors, voltage surge suppressors, voltage surge protectors, electrical surge arrestors, circuit breakers and circuit closers, electric circuit closers and cut-out switches; switchboards; voltmeter; counters to electricity meters; circuit breakers; measuring and dosing apparatus, namely, mechanical devices, namely, dispensers of preset portions of fluids, solid granules and powder for dosing purposes, all not for medical use; electric power conversion devices, namely, AC/DDC generators; electric and electronic installations for (remote) control of automated industrial processes, namely, electronic notice boards as well as visual and acoustic warning signals, control panels, distribution consoles, control cables and buttons; elevator operating apparatus, steering apparatus, automatic, namely, elevator lifts, elevator motors for lifting vehicles; installations and apparatus for transmitting, switching and controlling electric current, including their parts, namely, electric voltage transformers, high-voltage generators, voltage monitor regulators, voltage monitor modules, voltage regulators for electric power, voltage stabilizers, voltage surge protectors, ; circuits for heavy electrical current; aerial cables for heavy currents; transformers, namely, electrical voltage transformers, power transformers, electrical power reactors, namely, electrical converters, electrical relays and transformers, electric power generators and parts and fittings therefor; distribution transformers; power switches; electrical sockets; solar batteries; apparatus for lighting, heating, cooling and ventilation, including fans, sanitary installations, namely, lighting fixtures, light emitting diodes, led light bulbs, ceiling lights, electric torches for lighting, emergency warning lights for power plants, heating elements, electrical control systems for heating systems, air cleaning units, air conditioners, air purifying units, ,cooling evaporators, electrical control systems for heating and air conditioning systems, industrial air purifiers, ventilating fans, water conditioning units and fans for motors and engines; steam generating installations, namely, steam generators; apparatus for drying, namely, industrial dryers for heating and dehumidifying, namely, industrial dehumidifiers, industrial furnaces; apparatus for ventilation, namely, ventilating fans for commercial and industrial use; apparatus for water distribution, namely, metered valves, pressure regulators for water installations, cooling installations for water and water purification and filtration apparatus, namely, water coolers, water distillations units, water sterilizers; solar collectors; heat pumps; stoves, through the distribution of videos

CLAIMS

Used in CANADA since at least as early as 2012 on goods (1) and on services (1). Priority Filing Date: SWITZERLAND January 10, 2014, Application No: 50249/2014 in association with the same kind of goods (2) and in association with the same kind of services (2). Used in SWITZERLAND on goods (2) and on services (2). Registered in or for SWITZERLAND on March 31, 2014 under No. 656765 on goods (2) and on services (2)

Physiothérapie O2

Index Headings
O2 PHYSIOTHÉRAPIE O2

Image Description (Vienna)
- Numerals presenting a special form of writing
- Numerals juxtaposed or joined to a letter or a figurative element
- Hearts – Note: Including also hearts represented as a symbol or on playing cards.
- Letters or numerals representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object
- Letters or numerals representing a human being or a part of the human body
- Red, pink, orange
- Blue

Trademark Description
The drawing of an O2 symbol with a fading heart (colour gradient) in the background. The heart is completed through the reflection of the curve of the 2.

Colour Claim
Colour is claimed as a feature of the trademark. Normally and most of the time, the 2 and the heart are red. The O is blue. However, on a background that is not white or on a material other than paper, the colours of the logo may vary to adapt to the circumstances

Goods

Promotional accessories, namely sweaters, caps, pants.

GoProcedures

Goods

Computer software for use in monitoring, managing and delivering completion services and commissioning services and procedures namely services and procedures for assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements; computer software for saving and searching information on procedures used in commissioning (namely, assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements) start-up, operating and preservation processes in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for recording, storing and searching data in the field of productivity, resource allocation and the progress of construction and commissioning projects (namely, projects to assure that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software, including software downloadable from the internet, for managing the authoring and execution of commissioning procedures in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries namely, assuring that all systems, equipment and components used in projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries are designed, installed, tested, operated, and maintained according to operational requirements; computer software for providing an on-line database to store information and data on procedures used in major capital project commissioning, to upload procedural information and project data and produce notifications and reports; computer software for tracking and monitoring progress of projects and the level of progress of completion of equipment in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for preparing and executing construction, completion projects and commissioning activities and projects (namely, assuring that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, mining, pharmaceutical and nuclear industries; computer software for recording, storing and searching data in the field of productivity, resource allocation and the progress of projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for the planning of construction, completion projects and commissioning projects (namely, assuring that all systems, equipment and components are designed, installed, tested, operated, and maintained according to operational requirements) in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software for providing an on-line database to store procedural information and data in the field of oil and gas, energy, mining, chemical, pharmaceutical and nuclear projects, to upload procedural and project data and produce notifications and reports; computer software, namely, computer programs and interfaces for engineering, constructing, operating, commissioning and managing industrial construction projects, nuclear power projects, mining projects, and oil and gas exploration and production projects; computer software for determining productivity in the oil and gas industry; computer software for auditing projects in the oil and gas industry; computer software for field management in the hydrocarbon exploration and production industry; computer software for analyzing, monitoring and planning workflow; computer software for monitoring and analyzing technical and operational data in the oil and gas production and exploration industry; computer software for estimating cost and resource requirements for the construction, completion and commissioning (namely assuring that all systems, equipment and components are designed, installed, tested, operated and maintained according to operational requirements) of projects in the oil and gas, energy, mining, chemical, pharmaceutical and nuclear industries; computer software featuring algorithms for use in providing cost quotations for industrial project commissioning services, namely, assuring that all systems, equipment and components used in projects for nuclear power projects, construction and mining projects and oil and gas extraction and production projects are designed, installed, tested, operated and maintained according to operational requirements; computer software for database management; computer software for aided design; commissioning procedures software for use with an energy production facility; Electronic publications, namely, manuals, guides, pamphlets, newsletters and newspaper, magazine and journal articles that are downloadable from a public data network in the fields of engineering, commissioning and completion of industrial oil and gas energy projects, nuclear power projects, mining and construction projects; printed matter, namely, manuals; engineering manuals in the form of printed matter; commissioning manuals in the form of printed matter; engineering manuals in the form of printed matter; guides (printed matter) for engineering and commissioning purposes; Printed matter, namely, manuals and guides in the field of computer software for planning, engineering, constructing, operating and managing industrial nuclear projects, oil and gas extraction, mining projects and production projects and construction projects.

Goods

Class 07

(1) Printing machines for textiles, automatic looms and industrial robots. Heavy machinery, robotic mechanisms, for working and shaping wood, metal, glass and plastic material and metals, namely wood cutting machines, beating machines, glass cutters, plastics molding machines, cutting machines for metalworking. Lifting, conveying and transportation machines, robotic mechanisms with the same function (including lifts, escalators, cranes), namely cargo lifting derricks. Machines and robotic mechanisms used in the agriculture and viticulture and in processing cereals / fruits / vegetables / food, namely agricultural reaper machines. Engines, electrical engines, their parts and equipments other than for land vehicles including parts, electric door openers-closers used in land vehicles, namely aeroplane engines. Bearings, ball-bearings or roller bearings, namely machine bearings, ball bearings for hard drives, roller bearings for machines. Tire mounting and dismounting machines. Alternators for motor vehicles, current generators, generators of electricity, solar energy generators. Painting machines, automatic spray guns for paint, electric punching machines and punches for punching machines, namely rapid punching machines for sheet metal, electric glue guns, guns for compressed air or liquid spraying machines, namely paint spray guns, electric hand drills, motor hand saw, jigsaw machines, spiral machines, compressed air pumps, air compressors, vehicle washing installations, namely central vacuum cleaning installations, washing machines, and robots with the same function as the above-mentioned machines and tools. Welding machines, electric arc welding machines, electric welding machines, electric arc cutting machines, electrodes for welding machines and robots with the same function as the above-mentioned. Intaglio printing machines. Packaging machines, filling-plugging and concrete finishing machines, labeling machines, separators, namely machines for separating recyclable materials and robots and robotic mechanisms with the same function as the above-mentioned machines. Textile milling, scotching, tentering and washing machines, sewing machines and industrial robots with the same function as the above-mentioned machines. Pumps other than parts of machines or engines (including fuel dispensing pumps and guns for these), namely gas pumps, vacuum pumps. Electrical appliances used in kitchen for chopping, grinding, crushing, whisking and milling, namely electrical drills, electric food choppers, electric food grinders, electric whisks, electric meat slicers, electrical coffee grinders, electrical juice extractors for fruit; washing machines (laundry); electrical machines for

cleaning floors and carpets, vacuum cleaners and their parts. Vending machines. Power supply apparatus, namely electric generators. Waste management installations, namely waste material conveying machines.

Class 08

(2) Forks, spoons, knives and non-electric cutlery for cutting, chopping, peeling purposes, including those of precious metals. Tools and appliances used for personal care in shaving, depilation, manicure, pedicure and beauty-care, namely hair straighteners and hair curling implements, all purpose scissors, shaving cases, shaving blades, pedicure sets. Hand-operated tools for repair of machines, appliances and vehicles, hand-operated tools for building, agriculture, gardening and forestry. Electric and non-electric irons, namely molding irons.

Class 09

(3) Measuring apparatus and instruments, indicators and laboratory materials, namely wind-direction indicators, water-lever indicators, ammeters, anemometers, barometers, densimetres, hydrometers, kitchen scales, weighing scales, namely bathroom scales and kitchen scales. Apparatus for recording, transmission or reproduction of sound or images (including apparatus and peripheral devices for data processing, telecommunication and reproduction), namely blank CD-ROMS for sound or video recording, sound and video recording and playback machines. Magnetic and optical data carriers, namely blank magnetic discs and data carriers, namely blank floppy discs, USB flash drives and software recorded in these, namely computer software for database management, computer software for processing digital images. Antennas, satellite dishes, amplifiers and their parts. Ticket dispensers, automated teller machines. Counters measuring amount of consumption in unit time and time clocks, namely electric meters. Protective suits for divers and life-saving apparatus and equipment, namely ear plugs for divers, life-saving rafts, escape ladders, rescue nets, rescue tarpaulins, life belts, life buoys, life jackets, electric relays, transponders, thermal sensors, electric actuators. Glasses, sunglasses, contact lenses and their boxes, covers, parts and accessories. Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely electric transformers (including cables used for electric and electronic purposes, batteries, accumulators, anodes and cathodes). Apparatus for warning and alarms, namely anti-theft warning alarms, intercoms, emergency warning lights, sirens, electric bells. Signaling devices and apparatus used in traffic, namely traffic signals, traffic cones, portable message boards, arrow boards, speed and radar trailers. Fire extinguishing apparatus including namely fire extinguishers, fire engines, fire hoses and fire hose nozzles.
